(Continue from Part 1.)

Major pathology journal article titles, November 2012, Part 2.

P-499. Transitional Cell Carcinoma of the Ovary is Related to High-grade Serous Carcinoma and is Distinct From Malignant Brenner Tumor.

P-507. Clinicopathologic and Immunohistochemical Features of Ovarian Clear Cell Carcinomas in Comparison With Type I and Type II Tumors.

P-517. Immunohistochemical Localization of HE4 in Benign, Borderline, and Malignant Lesions of the Ovary.

P-524. Prevalence of Loss of Expression of DNA Mismatch Repair Proteins in Primary Epithelial Ovarian Tumors.

P-532. ATF5 Is Overexpressed in Epithelial Ovarian Carcinomas and Interference With Its Function Increases Apoptosis Through the Downregulation of Bcl-2 in SKOV-3 Cells.

P-538. Collision tumor of the ovary: adult granulosa cell tumor and endometrioid carcinoma.

P-541. Comparison of primary and recurrent adult granulosa cell tumors.

P-542. Foreign body reaction after laparoscopic oxiplex administration mimicking peritoneal adenomucinosis: a potential pitfall in frozen section.

P-545. Ovarian paraganglioma arising from mature cystic teratoma.

P-547. Low-grade Smooth Muscle Tumors of the Primary and the Secondary Mullerian System: A Proposed Concept of Multicentricity.

P-556. Endometrial morphology after treatment of uterine fibroids with the selective progesterone receptor modulator, ulipristal acetate.

P-570. Tyrosine kinase receptor status in endometrial stromal sarcoma: an immunohistochemical and genetic-molecular analysis.

P-580. Multifocal uterine myxoid change: a newly recognized association with neurofibromatosis type 1.

P-584. Extramedullary hematopoiesis involving uterus, fallopian tubes, and ovaries, mimicking bilateral tuboovarian abscesses.

P-596. Adenoid cystic carcinoma of skene glands: a rare origin in the female genital tract and the characteristic clinical course.

International Journal of Surgical Pathology, Volume 20.

There is no November issue.

P-963. IgG4-related disease: can non-classical histopathological features or the examination of clinically uninvolved tissues be helpful in the diagnosis?

P-970. Non-invasive urine based tests for the detection of bladder cancer.

P-976. Review of hepatocellular cancer, hypertension and renal impairment as late complications of acute porphyria and recommendations for patient follow-up.

P-981. Faecal markers of gastrointestinal inflammation.

P-986. Gene of the month: BRAF.
P-989. Prognostic and predictive significance of proliferation in 867 colorectal cancers.
P-996. Prognostic impact of beta-2-microglobulin expression in colorectal cancers stratified by mismatch repair status.
P-1013. Post-mortem analysis of bone marrow osteoclasts using tartrate-resistant acid phosphatase staining: does histochemistry work and correlate with time since death?
P-1019. High expression of L-type amino acid transporter 1 (LAT1) predicts poor prognosis in pancreatic ductal adenocarcinomas.
P-1024. Performance evaluation of the Sysmex haematology XN modular system.
P-1036. Elevated, combined serum free light chain levels and increased mortality: a 5-year follow-up, UK study.
P-1043. Retrospective review of diagnostic histopathology samples in research projects: transparency should be the practice with respect to diagnostic discordance.
P-1045. Supported liquid extraction offers improved sample preparation for aldosterone analysis by liquid chromatography tandem mass spectrometry.
P-1049. A rare case of gastric MALT lymphoma resistant to multiple treatment regimens.
P-1052. Expression of D-type cyclins in AL amyloidosis plasma cells.
P-1055. Marginal zone B-cell lymphoma in true trilineage haematopoietic tissue within heterotopic ossification of a surgical scar.

P-1439. The contribution of HGAL/GCET2 in immunohistological algorithms: a comparative study in 424 cases of nodal diffuse large B-cell lymphoma.
P-1446. beta-Adrenergic receptor expression in vascular tumors.
P-1462. Histologic and cytomorphologic features of ALK-rearranged lung adenocarcinomas.
P-1473. Definition of a fluorescence in-situ hybridization score identifies high- and low-level FGFR1 amplification types in squamous cell lung cancer.
P-1481. Deciduoid mesothelioma: report of 21 cases with review of the literature.
P-1496. Papillary mucinous metaplasia of the endometrium as a possible precursor of endometrial mucinous adenocarcinoma.
P-1508. Expression of miRNAs and PTEN in endometrial specimens ranging from histologically normal to hyperplasia and endometrial adenocarcinoma.
P-1516. ALK alterations in adult renal cell carcinoma: frequency, clinicopathologic features and outcome in a large series of consecutively treated patients.
P-1526. p16 expression is not associated with human papillomavirus in urinary bladder squamous cell carcinoma.
P-1543. Loss of PTEN expression is associated with increased risk of recurrence after prostatectomy for clinically localized prostate cancer.
There is no November issue.

**Pathology. Volume 44.**

P-635. Expression of autophagy and ER stress-related proteins in primary salivary adenoid cystic carcinoma.

P-642. Hyaluronan turnover and hypoxic brown adipocytic differentiation are co-localized with ossification in calcified human aortic valves.

P-651. Impact of the epithelial dysplasia grading and Ki67 proliferation index in the adjacent non-malignant mucosa on recurrence and survival in head and neck squamous cell carcinoma.

P-657. Comparison of immunohistochemical analysis with estrogen receptor SP1 and 1D5 monoclonal antibodies in breast cancer.

P-662. Prognostic significance of glomerular and tubulointerstitial morphometry in idiopathic membranous nephropathy.

P-668. Clinician compliance with laboratory regulations requiring submission of relevant clinical data: A one year retrospective analysis.

P-672. Tumor-associated macrophages and angiogenesis: A statistical correlation that could reflect a critical relationship in ameloblastoma.

P-677. The influence of physical activity in the progression of experimental lung cancer in mice.

P-683. Mast cell sarcoma of the scalp: The first sign of undisclosed systemic mastocytosis?

P-687. Pyogenic granuloma of the large intestine: Case report and review of reported cases in the adult.

P-691. Diagnostic challenge: Intraductal neoplasms of the pancreatobiliary system.

**Pathology International. Volume 62, Issue 11.**

P-719. Analysis of the light-sensitivity of the photoreceptor cells of the ataxia and male sterility (AMS) mouse, an Nna1 mutant.

P-728. Chromogenic in situ hybridization (CISH) to detect HER2 gene amplification in breast and gastric cancer: Comparison with immunohistochemistry (IHC) and fluorescence in situ hybridization (FISH).

P-742. Expression of ERG oncoprotein is associated with a less aggressive tumor phenotype in Japanese prostate cancer patients.

P-749. Malignant melanoma arising in a plaque-type blue nevus.

P-754. The recurrence of malignant pleural mesothelioma 14 years after extrapleural pneumonectomy: Possible histological transformation.

P-758. A large coronary aneurysm and its probable precursor lesions in a patient with autosomal dominant polycystic kidney disease: An implication for the process of aneurysmogenesis.

P-763. Plasmablastic lymphoma of the stomach in an HIV-negative patient.

P-774. Chronic inflammation on initial benign prostate biopsy is a negative predictor of subsequent cancer detection.

**Seminars in Diagnostic Pathology. Volume 29, Issue 4.**

P-175. IgG4-related disease. Introduction.

P-191. The pathology of IgG4-related disease: critical issues and challenges.
P-197. Autoimmune pancreatitis: a guide for the histopathologist.
P-205. Immunoglobulin G4-related sclerosing cholangitis: pathologic features and histologic mimics.
P-212. Retroperitoneal and aortic manifestations of immunoglobulin G4-related disease.
P-219. Pathologic manifestations of Immunoglobulin(Ig)G4-related lung disease.
P-226. Lymphadenopathy of IgG4-related disease: an underdiagnosed and overdiagnosed entity.
P-235. IgG4-related disease in the head and neck.
P-245. IgG4-related kidney disease.

P-1579. Acinar cystadenoma of the pancreas: a clinicopathologic study of 10 cases including multilocular lesions with mural nodules.
P-1592. Ampullary Region Carcinomas: Definition and Site Specific Classification With Delineation of Four Clinicopathologically and Prognostically Distinct Subsets in an Analysis of 249 Cases.
P-1609. Bone Marrow Histopathology in the Diagnostic Evaluation of Splenic Marginal-zone and Splenic Diffuse Red Pulp Small B-cell Lymphoma: A Reliable Substitute for Spleen Histopathology?
P-1619. TdT+ T-lymphoblastic Populations Are Increased in Castleman Disease, in Castleman Disease in Association With Follicular Dendritic Cell Tumors, and in Angioimmunoblastic T-cell Lymphoma.
P-1629. Intrahepatic Cholangiocarcinoma With Predominant "Ductal Plate Malformation" Pattern: A New Subtype.
P-1647. Intraductal tubular neoplasms of the bile ducts.
P-1674. Pleomorphic Adenoma of the Salivary Glands With Intravascular Tumor Deposits: A Diagnostic Pitfall.
P-1691. Immunohistochemical Markers on Needle Biopsies Are Helpful for the Diagnosis of Focal Nodular Hyperplasia and Hepatocellular Adenoma Subtypes.
P-1700. DNA Mismatch Repair Deficiency in Breast Carcinoma: A Pilot Study of Triple-negative and Non-Triple-negative Tumors.
P-1709. Endoscopic Surveillance of Patients With Hereditary Diffuse Gastric Cancer: Biopsy Recommendations After Topographic Distribution of Cancer Foci in a Series of 10 CDH1-mutated Gastrectomies.
P-1718. Handling of radioactive seed localization breast specimens in the pathology laboratory.
P-1724. Venlafaxine-induced Cholestatic Hepatitis: Case Report and Review of Literature.
P-1729. Extranodal NK/T-cell Lymphoma, Nasal Type, Arising in Association With Saline Breast Implant: Expanding the Spectrum of Breast Implant-associated Lymphomas.
P-1735. Letters to the Editor & Author’s reply: Capsular Contracture as a Further Presenting Symptom of Implant-related Anaplastic Large Cell Lymphoma.
P-1736. Letters to the Editor & Author’s reply: Capsular Contracture and Axillary Lymphadenopathy in Breast Implant-associated ALK-negative Anaplastic Large Cell Lymphoma.
P-1738. Letters to the Editor & Author’s reply: The 3-layered Ductal Epithelium in the Female Breast.

6 - 4.

P-261. "The chicken or the egg?" dilemma strikes back for the controlling mechanism in chordoma(#).
P-266. Notch3 and kidney injury: never two without three.
P-274. An integrated functional genomics approach identifies the regulatory network directed by brachyury (T) in chordoma.
P-286. Notch-3 receptor activation drives inflammation and fibrosis following tubulointerstitial kidney injury.
P-300. Developmental stage-specific contribution of LGR5(+) cells to basal and luminal epithelial lineages in the postnatal mammary gland.
P-310. A fatty acid-binding protein 7/RXRbeta pathway enhances survival and proliferation in triple-negative breast cancer.
P-322. Impaired decidual natural killer cell regulation of vascular remodelling in early human pregnancies with high uterine artery resistance.
P-333. Hepatocarcinogenesis in non-cirrhotic liver is associated with a reduced number of clonal hepatocellular patches in non-tumorous liver parenchyma.
P-341. Hyperinflammation of chronic granulomatous disease is abolished by NOX2 reconstitution in macrophages and dendritic cells.
P-351. Activation of protein kinase Cdelta leads to increased pancreatic acinar cell dedifferentiation in the absence of MIST1.
P-378. Transcriptional profiling of human glioblastoma vessels indicates a key role of VEGF-A and TGFbeta2 in vascular abnormalization.
P-391. Coordinated expression of REG4 and aldehyde dehydrogenase 1 regulating tumourigenic capacity of diffuse-type gastric carcinoma-initiating cells is inhibited by TGF-beta.
P-405. Dietary, lifestyle and clinicopathological factors associated with APC mutations and promoter methylation in colorectal cancers from the EPIC-Norfolk study.
P-416. Synergistic regulation of p53 by Mdm2 and Mdm4 is critical in cardiac endocardial cushion morphogenesis during heart development.

P-483. Gastric neuroendocrine cell hyperplasia and type 1 tumours occurring within gastric hyperplastic polyps.
P-489. Foveolar cells phagocytose apoptotic neutrophils in chronic active Helicobacter pylori gastritis.
P-495. Serrated polyps of the colon: how reproducible is their classification?
P-505. A combination of smears and cell block preparations provides high diagnostic accuracy for endobronchial ultrasound-guided transbronchial needle aspiration.
P-513. Invasion of the inner and outer layers of the visceral pleura in pT1 size lung adenocarcinoma measuring <\=3 cm: correlation with malignant aggressiveness and prognosis.
P-521. HER3 overexpression is a prognostic indicator of extrahepatic cholangiocarcinoma.
P-531. Cribriform adenocarcinoma of minor salivary glands may express galectin-3, cytokeratin 19, and HBME-1 and contains polymorphisms of RET and H-RAS proto-oncogenes.
P-541. Time-dependent biological differences in molecular markers of high-grade urothelial cancer over 7 decades (ras proteins, pTEN, uPAR, PAI-1 and MMP-9).
P-553. Bcl-2 expression indicates better prognosis of Merkel cell carcinoma regardless of the presence of Merkel cell polyomavirus.
P-561. Malignant fibrous histiocytoma and fibrosarcoma of bone: a re-assessment in the light of currently employed morphological, immunohistochemical and molecular approaches.
P-571. Whole genome and transcriptome amplification: practicable tools for sustainable tissue
biobanking?

P-589. Survivin, MMP-2, MT1-MMP, and TIMP-2: their impact on survival, implantation, and proliferation of endometriotic tissues.

P-607. Endosalpingiosis can mimic malignant glands and result in a false positive mesorectal resection margin.
